

THE DOGHOUSE CASE STUDY

WHO ARE THE DOGHOUSE?

Located in Bradford-on-Avon, The Doghouse (formerly Fetch Petshop) is a pet store. The owners have recently relocated, rebranded and relaunched adding a dog grooming salon and coffee shop to the mix.

THE CHALLENGE

Our client needed someone to supply and configure all data and telecoms services in time for the launch of their new store. As they were relocating to larger premises it was really important that they had a bigger and better quality network. Systemagic needed to take into account the growth of the company to ensure all the solutions put in place fit in perfectly with the clients requirements.

THE SOLUTION

We supplied The Doghouse with telephones, a telephone line, broadband and wifi. Our engineers ensured our clients network had a stable foundation by data cabling throughout the store too, all of this was done prior to the opening in July.

WHO ARE SYSTEMAGIC?

With over 18 years experience in the industry we pride ourselves on Doing IT Differently. Systemagic has a long history of working with some of the west-country's finest independent hotels and boutique guest houses.

At Systemagic we provide people-focused IT support, cloud and internet services with no long term contracts to businesses in Bath, Somerset, Wiltshire and beyond.
