

THE CASTLE INN CASE STUDY

WHO ARE THE CASTLE?

Located in Bradford-on-Avon, The Castle is a freehouse pub with boutique bedrooms and stunning views over the Georgian roof tops of the town. The Castle is set in a Georgian building and has traded as an Inn for some 160 years!

THE CHALLENGE

Our client needed a wifi solution to replace their previous system that was very old and didn't cover all areas of the pub and guest rooms. They wanted to grow their customer base by appealing to people who want to work during the day and use wifi in their premises.

The previous wifi solution was slow and unreliable therefore Systemagic were engaged to install a fast wifi system that results in guest satisfaction.

THE SOLUTION

Our engineers installed and upgraded the internet connection in The Castle to super fast fibre. As well as this they installed a modern and professional wifi solution with a new router and firewall to ensure users are safe and secure at all times.

WHO ARE SYSTEMAGIC?

With over 20 years experience in the industry we pride ourselves on Doing IT Differently.

At Systemagic we provide people-focused IT support, cloud and internet services with no long term contracts to businesses in Bath, Somerset, Wiltshire and beyond.

We understand how vital technology is to your business and to the people involved in it. We take time to understand your business requirements and then provide tailored IT support and services.
