

MEET THE APPRENTICE GABRIEL HUNTER

About Gabriel

Gabriel joined Systemagic in October 2024 as an IT Technician and works on our helpdesk, assisting our customers with technical problems while learning from our senior IT technicians.

Why Did You Choose Systemagic?

I was looking for apprenticeships to help kickstart a career change. I saw that Systemagic had a long-established and successful apprenticeship program and that they were looking to hire another apprentice at the time. I thought, "What have I got to lose?"

What Did You Do Before Your Apprenticeship?

Before this, I studied and worked in the media industry as a video production assistant for three years.

Why Did You Choose a Career in IT?

It might sound cliché, but I've always been interested in technology. My career options after college were either media or IT, but I performed better in my media exams, so I initially pursued that path.

However, my career in video production didn't feel fulfilling, and I eventually stopped enjoying it, so I wanted to find something I'm passionate about.

What Part Of Your Job Do You Most Enjoy?

I love the hands-on learning experience. With my apprenticeship, I'm learning the skills I need by actually doing the job, all while being supported by experienced colleagues.
